

OMER SANTY-ATEYABA

Chief of Service, Supply Chain Management

Mr. SANTY-ATEYABA joined MINUSCA from UNSOS where he served as Officer-in-Charge, Supply Chain Management Service cumulatively with his function of Chief of Supply Chain Performance Management Section.

Mr. SANTY-ATEYABA has more than twenty (20) years of combined professional experience in manufacturing operations, business process improvement, technology deployment, logistics, supply chain operations and performance management both in the private sector and in the UN.

Before joining the UN, Mr. Santy-Ateyaba spent a decade in automotive industry as an expert in product and process life-cycle management. He then joined UNHQ where he served in Engineering, Strategic Deployment Stock Management, Property Management and as domain expert in the Umoja solution design. He also led the centralization of warehouse operations and maintenance in UNGSC.

An ASCM (former APICS) Certified Supply Chain Professional, Mr. SANTY-ATEYABA holds a master's degree in Mechanical Engineering from Howard University Washington, DC, and is a graduate of Michigan State Executive MBA program, specializing in Strategic Management and Supply Chain Management.
