

Human Rights Division
Monthly Report
July

2018

MINUSCA Human Rights Division (HRD) recorded 171 new incidents of violations/abuses of international human rights law and breaches of international humanitarian law affecting 292 victims, including 97 men, 33 women, 38 boys, 15 girls, 95 unidentified victims and 14 collective victims. These figures represent a 29.2 percent decrease in the number of incidents and a 15.4 percent increase in the number of victims compared to the previous reporting period during which HRD documented 221 incidents of violations/abuses affecting 337 victims. Despite the decrease in the number of incidents perpetrated by armed groups as a whole, the Unité pour la Paix en Centrafrique (UPC) and the anti-Balaka intensified acts of violence against the civilian population living in areas under their control.

Armed groups accounted for 171 incidents, which represent 100% of the total number of incidents and 292 victims that signify 100% of the total number of victims.

The most recurrent violations recorded during the month of July were killings, death threats, cruel and inhuman treat-

ment, conflict-related sexual violence, arbitrary deprivation of liberty related to the armed conflict, abductions, appropriation, destruction/pillaging of property, recruitment and use of children in armed groups, attacks on peacekeepers and humanitarian workers including their equipment and denial of humanitarian access.

The reporting period also recorded developments in the area of Transitional Justice. On 25 July, President Touadéra signed a decree extending the mandate of the Steering Committee of the Truth, Justice, Reparation and Reconciliation Commission (CVJRR) for three months. On 27 July in Bangui, the Executive Board of the Steering Committee of the CVJRR held deliberations over the Concept Note on the national consultations and budget proposals.

HRD completed five Risk Assessments to support national security and defense forces (Police, Gendarmes, FACA, Water and Forest Guards), which were endorsed by the chairs of the HRDDP Task Force.

JULY 2018

The figures mentioned in this fact sheet do not reflect a complete overview of the human rights violations and abuses in July 2018, but only relate to cases documented by the HRD, through OHCHR methodology and standards. It is worth noting that these figures may include human rights violations committed during previous months but brought to the attention of the MINUSCA's HRD in July 2018. Statistics on the number of violations/abuses reported may increase or decrease over a given period due to numerous factors outside the control and/or knowledge of the HRD and must therefore be used with caution.
